Transcript

Hi everyone. Today's word of the day is **hectic**. **Hectic** is an adjective. It has a negative connotation and you can use it informally and formally. The definition of **hectic** is to describe something that is intensely agitating, maybe exciting, confusing, and rapid.

You usually use **hectic** to describe when you are very busy in your life. For example, let's say you are meeting your friends and they say,

"Hey Paul, where have you been? We haven't seen you in ages."

You can reply,

"I'm sorry. It's just been so hectic at the office for the last couple of weeks. I've been working like crazy to meet our deadline."

So in this situation, you are describing that you've been working very hard and your office is constantly busy. Remember **hectic** is the opposite of calm and slow.
